1. Membuat tabel *user* dengan kriteria berikut

The screenshot shows the MySQL Table Structure for a table named 'user'. The table has five columns: id_user, password, nama_lengkap, email, and level. Each column is of type VARCHAR with varying lengths (50, 100, 100, 50 respectively). The 'id_user' column is marked as the primary key. The 'password' column is marked as unique. The 'nama_lengkap' column is marked as unique. The 'email' column is marked as unique. The 'level' column is marked as unique. The table is located in the database 'semester5_pwd_prak_akademik'.
